

## Use your mobile as a webcam

---

Mobiola TM Web Camera for S60 3rd Edition application turns Symbian phone into wireless bluetooth web camera which works same way as usual USB camera. Very simple in configuration and installation, Mobiola TM Web Camera for S60 3rd Edition v.1.0 consists of two pieces -- client application that resides on the phone and web camera PC driver which can be used in any PC application capable to receive video feed from the web cameras. It has comparable to USB cameras resolution and frame rates.

PC system requirements:

- Windows 2003, Windows XP or Windows 2000 operating system.
- Bluetooth (version 1.1 minimum) compatible device which provides a virtual serial port.
- 8 MB of free hard disk space on PC

## Kaspersky Mobile Security

---

### Kaspersky Mobile Security

Kaspersky Mobile Security (Consumer Software: Mobile Security) Viruses, worms and Trojans have spread beyond just personal computers. With the growing popularity of smartphones, malicious programs for mobile devices are appearing in increasing numbers and diversity. As the mobile workforce increases, more employees rely on smartphones to stay linked-in and productive, which means companies must rely on stronger security measures to safeguard confidential materials also on the move. Developed in the company's award-winning laboratory, Kaspersky Mobile Security is a fully functional, seamlessly integrated security solution for smartphones that uses a combination of real-time antivirus protection and on-demand scanning to protect against threats, and also provides protection from unwanted SMS/MMS messages by blacklisting undesirable phone numbers. Kaspersky Mobile Security provides easy-to-manage and reliable protection for smartphones from malicious programs and SMS and MMS spam messages.

Private company, established in 1997

Number of Employees: 800

Markets: Consumer, Education, Finance, Healthcare, Security, Supply Chain

Operating Systems: Symbian, Windows Mobile for Smartphone

2007 Mobile Star Awards™ Entrant:

Kaspersky Mobile Security includes a range of new technologies and features such as: Automatic antivirus database software updates as well as on-demand, on-access, and on-schedule scanning of

all incoming and outgoing files, the mobile device's onboard memory, memory cards, an individual folder, or a specific file.

Flexible settings allow users to view the phone's antivirus status as well as the event log, which records all actions performed by the program.

Fast and discreet solution that uses phone resources economically, even on the slowest smartphone models.

A simple and easy-to-use interface offers the highest level of protection from text message spam.

Advanced English Dictionary is distinguished from the other (paper, electronic) dictionaries in many ways. Not because it contains far more words than a conventional paper dictionary, but because it uses a radically new approach and technology called WordNet. Instead of just listing the words and their definitions, Advanced English Dictionary shows how every word is linked to another. Type in the word "tree" and you will get not only the definition, synonyms and opposites, but the hypernyms (a tree is a kind of what?), meronyms (what are the parts of a tree?) and more. You can also find a list of hundreds of trees, from yellowwood to the Tree of Knowledge, and even all words that contain the letters t-r-e-e. This WordNet approach will help you to understand better the meaning of words. Linguists call WordNet project one of the biggest leaps for dictionaries since scholars sat down to write the epic Oxford English Dictionary.

Setup Wizard:

- connects your phone easily with you computer (serial or USB cable, infrared or Bluetooth, up to COM Port 300 supported)
- device will be found quick even e.g. on COM port 200
- configures your Mobile Master settings for the 1st synchronization...

Quick start area:

Here the most used functions are grouped for quick access by one click.

- Can be configured due to personal preferences
- Start a synchronization
- Find the phone and configure Mobile Master
- Copy data (addresses, calendar, notes) from one phone to another (e.g. from a Samsung to a Sony Ericsson device)

Synchronize:

- Synchronize your phone numbers/addresses and calendar with:  
Outlook 97, 98, 2k, XP, 2003, 2007  
Lotus Notes R5, R6, R6.5, R7, R8 (beta 2)  
Palm Desktop (4.1.2 or newer)

Thunderbird, Sunbird, Thunderbird calendar  
Mozilla SeaMonkey  
Tobit David InfoCenter V8/V8+/V10,  
Novell GroupWise (7.x),  
Eudora ,  
The Bat,  
Windows Vista contacts and calendar,  
Outlook Express,  
Opera  
Eudora  
or a text file (txt, vcf, csv, ics, vcs)

- define which folders or categories shall be synchronized to the phone
- many filter possibilities, e.g. switch first and last name

Address / phone book :

- Edit easily your contacts with your computer
- Offline working possible, there is no need to connect the phone
- Synchronize or just compare the contacts
- Export to Word, Excel, Open Office, Outlook, Lotus Notes, Palm Desktop, Outlook Express, files
- Import from Outlook, Lotus Notes, Thunderbird, Palm Desktop, The Bat, Eudora, files, Outlook Express, Excel

Calendar:

- Edit easily your appointments and tasks with your computer
- Offline working possible, there is no need to connect the phone
- Synchronize or just compare the appointments and tasks
- different views of the calendar: by month, week, work week, day or as table
- Recurring appointments supported, such as every 3rd week, or every 2nd Tuesday each month

Phone Explorer:

- Copy your photos to your PC and your favorite music to the phone
- Copy entire Winamp or iTunes playlists or single files to the phone

SMS Center:

- Write easily and send SMS (text messages)
- Read in the SMS from the phone
- Archive your SMS

- Insert predefined texts to your SMS

#### Analyzer:

- The Analyzer shows you details about your phone, such as the ISMI, call diversions, battery state, ...

- Edit the browser bookmarks, import them from Firefox, Internet Explorer, Opera or just drag & drop them to Mobile Master  
(only for some Siemens and the newer Sony Ericsson handsets)

#### Mobile Master Agent:

- This is a little tray application, waiting for a phone being connected:
- When a phone is connected, e.g. a synchronization can be started automatically or a menu with actions will be displayed

- Quick access via the context menu, e.g. to run Mobile Master or to write a new SMS

- Customizable for each phone

#### AddIns:

- Mobile Master provides Add Ins for the following applications:

Outlook 2k, XP, 2003, 2007

Lotus Notes R5-R7

Palm Desktop

Thunderbird

Tobit David InfoCenter V8/V8+

- With these Add In you can easily start e.g. a synchronization from the application via button and/or a menu

- In Outlook a button in the edit window for contacts, appointments and tasks will be added. By pressing that button the contact, appointment,... is stored in Outlook and it is transferred to the phone, all in one click!

#### User friendly User Interface:

- Setup Wizard: guides you through the configuration of Mobile Master
- Copy Station: copy data from one phone to another with a wizard

#### Export / Import:

Many import and export filters, e.g. one click to export to excel or open office.

Can import e.g. vcf file with more than one contact and that has unicode format

#### Working offline:

- you can edit data without the phone being connected

#### Profiles:

- to If you install a new version or update an have an license older than one year you will have only the light edition.

Mobile Master is continuously updated and improved

- at least one update per month for new phones

....

Siemens/ Benq Siemens	E-Series: EL71, E61 S-Series: S80, S60, S75, SL75, S65, S65, S65, S55, S55, S46, S45, S42, S45i, S45, S45, S35i SK75 and SK1 are not supported M-Series: M75, M675, M65, M56, M55, M50, MTS0, M50, ME45, M35i C-Series: CX75, CF75, C75, CX70, CX65, C62, C45, C35i A-Series: AX75** Gigaset: SL1, SL100, SL150 and compatible

\* Not all of the fields of the address book are supported, will be the case in near future  
 Contents of the unsupported fields are not modified by Mobile Net Switch, they keep their contents  
 \*\* seems to work due to users, but not yet tested

## Mobile Net Switch 3.68

### Mobile Net Switch 3.68

Mobile Net Switch enables you to use your computer on more than one network with the click of a button. Mobile Net Switch allows you to automatically select the correct drive mappings, printer settings, IP settings and much more!

The powerful easy to use interface allows you to configure your computer for every network you will be connecting to (Workgroup or Domain). It's the perfect solution for everyone with a mobile computer who is using it on more than one network (e.g. when you are using your machine on multiple locations, offices or at home). Each location is stored in a profile. Simply select a profile and your drives will be mapped correctly, the correct default printer will be selected, IP Addresses will be set correctly, the correct Pr o \_x y Server will be configured, and much more. You will be able to use your machine on any network with ease!

<http://mihd.net/qtu83v>

**SonyEricsson.Media.Studio.v2.5**

---

A memorycard as small as 128 Mb is enough to store a couple episodes of a tv-series, a full length feature film, or a hundred minutes of your home movies. Let your children watch their favourite TV-cartoons in the car or watch a blockbuster movie while travelling for business. With only two clicks, this PC software converts your media to a super small movie file, which will play on any Sony Ericsson device, such as the P990, K750 , M600, W900, V800, and many others. on a postage stamp size memory card. You can use a headset or the built-in speaker to listen to the sound. Subtitled and foreign language DVDs are also supported. You wil have to see the quality to believe it, using supreme MPEG4 encoding, feature films look crisp and sharp on your cellular phone and still fit on a relatively small Memorystick Duo.
